2. Course Architecture

Commercial Learning Pathway

Each course uses the same structure: AI video lesson, practical model, downloadable tool, reflection task, classroom action, evidence upload, and certificate progress.

9. Early Warning Signs and Decision Tree

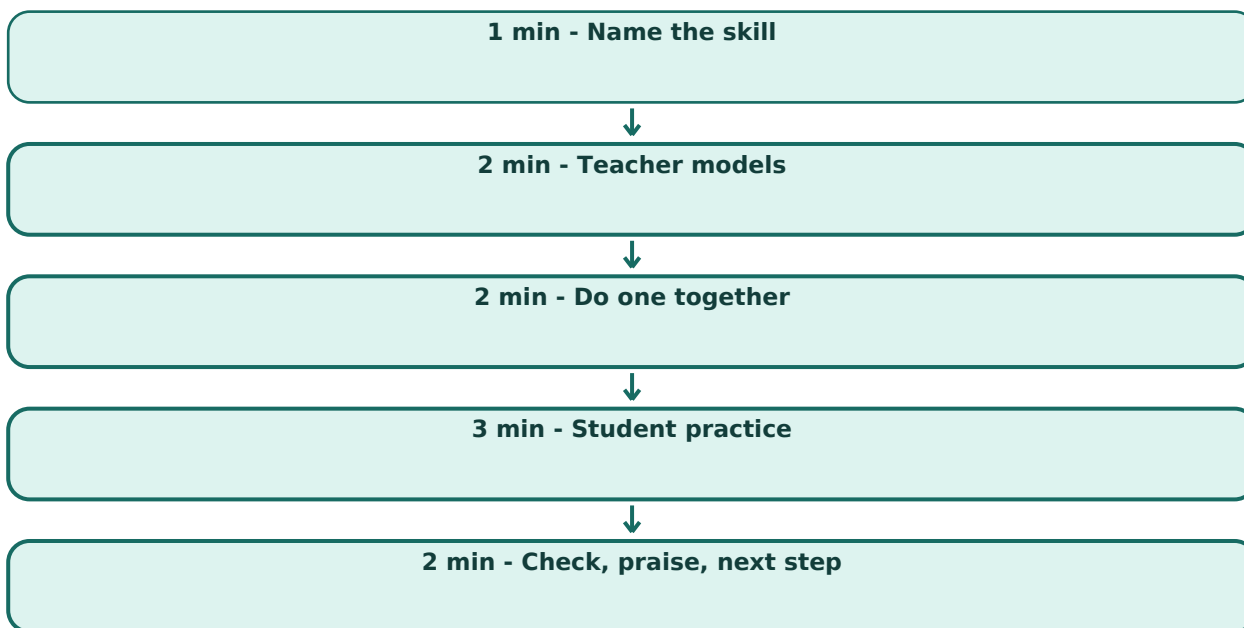

Academic Signs	Behaviour Signs	Emotional Signs
Low scores	Disruptive during difficult tasks	Quiet or withdrawn
Unfinished work	Avoids tasks	Worried or anxious

Weak reading/writing	Distracts others	Says "I cannot" quickly

Student Support Decision Tree

10. 10-Minute Intervention Routine

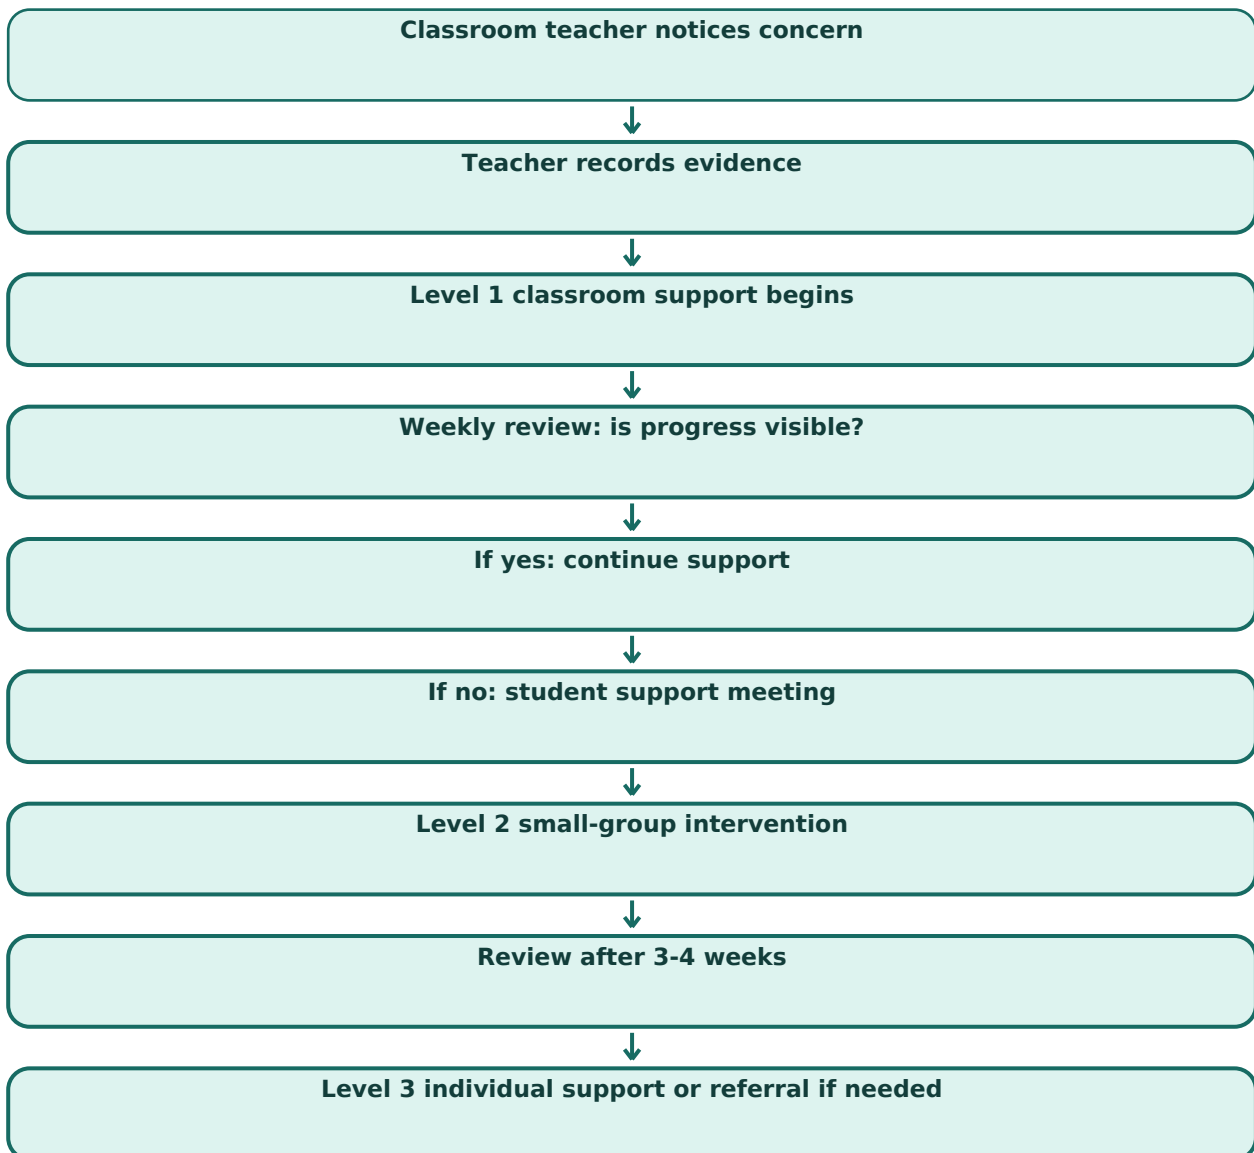

Quick Classroom Support Structure

Teacher Script	Purpose
Today we are fixing one small skill.	Keeps the focus narrow
First, watch me.	Provides a model
Now we do one together.	Guided practice
Now you try.	Independent practice
This is progress. You are improving.	Builds confidence

11. Whole-School Early Intervention System

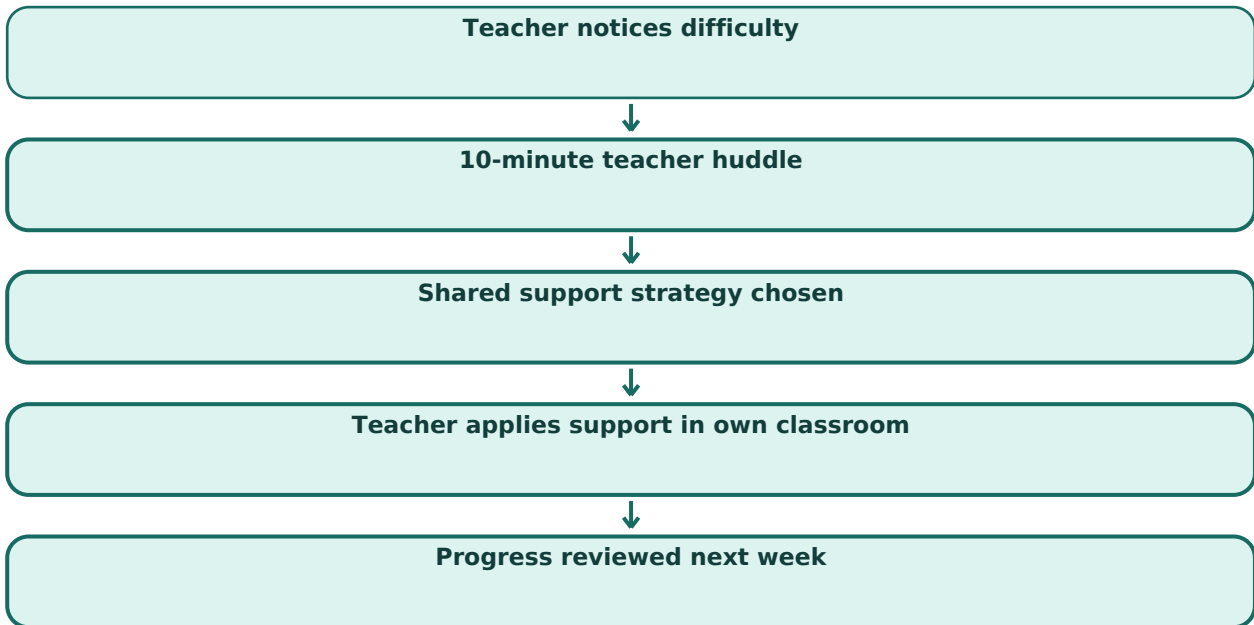

From Classroom Concern to School Support

12. Teacher Cooperation Without Co-Teaching

The model rejects forced, timetable-heavy co-teaching and replaces it with practical cooperation that schools can implement quickly.

No Forced Co-Teaching: Practical Cooperation

Cooperation Tool	Use
Shared student concern log	Record what teachers notice
Weekly huddle	Discuss 2-3 students quickly
Resource exchange folder	Share sentence frames, models and visuals
Intervention buddy	Help another teacher plan support
Monthly case review	Discuss persistent concerns

13. Differentiation Model

Same Goal, Different Support

Learning Goal: All students write a paragraph

Strong students: challenge task, more detail, own examples

Most students: paragraph plan, word bank, checklist

Struggling students: sentence frames, model answer, teacher support

Key message: Do not lower the goal. Increase the support.
